

Information Request NEDGC-4-8

Referring to the response to Attachment DTE 2-25, Schedule 13, Pages 4C and 5C, Description, define each of the following: Power Supply Transmission; Power Supply Distribution; 115-13.8kV Step Down; All Other Step Down; High Tension Cap Comp; Primary Cap Comp; Secondary Cap Comp; URD Feeders; All Other - High Tension; All Other - Primary; All Other - Secondary.

Response

Please refer to the table below and the response to Information Request NEDGC-4-9.

<b>Item</b>	<b>Description</b>
Power Supply Transmission	Transmission-related plant investment associated with power plant recorded in distribution accounts
Power Supply Distribution	Distribution-related plant investment associated power plant recorded in distribution accounts
115-13.8 kV Step Down	Plant investment associated with 115-13.8 kV step-down transformers .
All Other Step Down	Plant investment associated with transformers other than 115-13.8 kV step-down transformers.
High Tension Cap Comp	The portion of distribution plant investment related to 13.8 kV distribution capacity.
Primary Cap Comp	The portion of distribution plant investment related to primary (4,160 volt) distribution capacity.
Secondary Cap Comp	The portion of distribution plant investment related to secondary (<600 volt) distribution capacity.
URD Feeders	Investment in underground residential distribution cable and conduit.
All Other High Tension	Investment in underground distribution cable and conduit related to 13.8 kV distribution other than URD.

Item	Description
All Other – Primary	Investment in underground distribution cable and conduit related to primary voltage distribution other than URD.
All Other – Secondary	Investment in underground distribution cable and conduit related to secondary voltage distribution other than URD.
